SYNERA / GROUP COMPANIES

Ædra ApS

Built on experience. Driven by people.

Construction and project delivery

Ædra supports the construction process from preparation to handover. More than 20 years of personal experience developed in Italy, including subcontracting, underpin a practical approach to building work in Denmark. A mature and dynamic team passes its know-how to emerging professionals, with pride in workmanship, sound coordination and respect for Danish requirements.

How we can help

Construction planning

Work packages, sequencing, trade interfaces, materials and site readiness.

Execution support

Civil works, precast assembly, partitions, ceilings and specialist interfaces.

People and knowledge

Experienced leads working with and developing the next generation.

Quality and client dialogue

Checks before closure, issue tracking, reporting and coordinated handover.

How we work together

1. Understand scope, interfaces and programme
2. Organise teams, materials and delivery
3. Inspect, document and hand over

Fire protection is one part of our wider construction capabilities. Regulated work is undertaken only by appropriately authorised parties.
